

CORONAVIRUS

STAY AT HOME

SAVE LIVES

Need a general practice appointment about something other than coronavirus?

Here's what to do:

- Contact the practice, either online, by an app or by phone.
- You will be assessed and as far as possible you will receive advice or care online or over the phone.
- If a face-to-face appointment is necessary, you will be advised on what to do.

⊗ Please **DO NOT** enter the practice unless you've been advised to. This will ensure we can continue to provide essential care safely.
